

Self-directed Learning Plan | **Progress report**

Name: _____

I hope that you are enjoying what you are doing but also, I hope you feel like you are learning either a new valuable skill or set of skills whether it's something hands on or mentally being confident with making decisions and problem solving. You can report to me either at the end of each week or after each activity of job you do, depending on what you have planned.

Date:

What did you do/accomplish this week? (also, include any pictures or links to show what you've done even if not finished)

What were any challenges you had to overcome and what did you do to overcome/figure them out?

What were any new tools or techniques that you had used or learn to work with?

Is there anything you would have done differently?

What are your plans for next week or activity?

Please save this file as:

Yournameprogress1.pdf – as you go through each week, change the number to the current week (in red).
